

Fulbright-Hays Group Projects Abroad (GPA) Program

(United States Department of Education Grant)

**INTERNATIONAL AND
FOREIGN LANGUAGE
EDUCATION**

South Korean and Asian Literacy Education (SKALE)

**Open to Highschool Educators in Beaufort/Jasper/Chatham/Bryan/Effingham County Areas, USCB Faculty, and junior and senior Education students.*

South Korean culture and economics have a large impact on the Lowcountry/Coastal Empire, as seen by the building of a multibillion-dollar Korean-based industry, as well as affiliates and Korean suppliers, in the area. Along with the influence of the Korean Wave in entertainment and technology innovation, it is important that an understanding for South Korean language and culture be taught to area students. This Fulbright-Hays Group Projects Abroad Program ([News Announcement](#)) provides an opportunity for educators/students to be immersed in South Korean culture, language, and life on a 4-week educational trip to various institutional and historical South Korean sites in the Summer of 2024. Along with the 4 weeks abroad, all participants will be required to complete pre- and post- activities, which will coincide with aiding in a better understanding of how to educate students in curriculums related to South Korean culture. All travel, lodging, food, and cultural visits pertaining to the program activities in South Korea will be covered by the grant. For educators/faculty, preference will be given to applicants with research, teaching, and educational background in Asian, International, and/or Multicultural Studies.

Tentative Dates Abroad: June 23, 2024 – July 24, 2024
