

# ARE YOU READY FOR COLLEGE MATH?

Can you solve this equation?  $\sqrt{-x + 1} = x$

Can you solve for  $a$ ?  $ab - 2c = b + a$

## WE CAN HELP!

Here at USCB, we offer our students a week-long

# MATH BOOTCAMP

to help prepare for college math.

If you feel you need a refresher mini-course to get you ready for college algebra or precalculus, or if you want to remember how to solve the math problems above, join us during the week prior to the beginning of Spring 2018 semester!

### Details:

- 5 days
- 5 hours a day
- 10-12 and 1-4pm daily
- Lunch provided each day
- Refreshments in the mornings (Coffee and Cookies)
- Taught by USCB math professors
- Maximum of 15 students per class
- Limited seat available; register early!

### Math Topics Taught:

- Adding, subtracting, multiplying and dividing fractions
- Evaluating expressions
- Rules of exponents
- Rules of radicals
- Solving linear equations
- Solving linear inequalities
- Introduction to polynomials

**Admission is FREE. Registration deadline is December 15, 2017**

**Housing is available for current on campus students. More housing information will be emailed to residential participants the week of December 18<sup>th</sup>**

MONDAY **January 8** through **January 12** FRIDAY

Hargray Building, USCB Bluffton campus,  
One Univ. Blvd. Bluffton, SC 29909
