

**PLACEMENT TEST SCORE INFORMATION FOR ADVISORS**

These guidelines are provided to show how placements in English, foreign language, and mathematics are determined.

~~ENGLISH PLACEMENT TEST SCORES~~

~~The English test is not available at this time. Students will be notified at a later date if the test is needed.~~

- ~~Incoming freshmen who have taken the WRITING portion of the SAT (*not* the SAT VERBAL) do not have to take the English placement exam, but they may elect to do so if they do not place out of BENG 101L with their SAT score.~~
- ~~Students with a score of 470 or higher on the WRITING portion of the SAT do not have to take BENG 101L.~~
- ~~Students with a score below 470 on the WRITING portion of the SAT must either take BENG 101L or place out of BENG 101L with a sufficiently high score on the USCB English Placement Test.~~
- ~~Students with a score of 3 or higher on the AP English exam do not have to take the English placement exam, and they place out of BENG 101L.~~

MATHEMATICS PLACEMENT TEST SCORES

Prior to enrolling in mathematics courses, all students must take the Mathematics Placement Exam to determine the current level of math skill. This information is then used to determine which entry level math course is appropriate for each student.

- Only students who take the Mathematics Placement Exam may enroll in math courses.
- Students with a score of 3 or higher on the AP Calculus Exam are not required to take the placement exam.

**Advisor notes:** while students should be encouraged to enroll in the highest level math course for which they are eligible and which is appropriate for the major, they are not required to do so. The advisor and advisee should discuss the option that best suits the student’s needs and yet fosters the appropriate collegiate educational objectives.
