EXAMPLES:

- Student reports a history of self-injurious behavior (e.g., cutting or burning) and now states a desire to engage in this behavior again.
- Student makes statements that are suggestive of suicidal/homicidal thinking that are not overtly indicative of imminent danger (e.g., "I don't know if I can keep going").
- Student appears emotionally distraught and does not respond to your attempts to calm them.
- Student experiences a sudden stressful event (e.g. death, breakup, divorce) and seems emotionally unstable/inconsolable, **OR** the student's response appears unusual (e.g. uncontrollable crying over a failed exam, no apparent response to the death of immediate family member, etc.). Student's work, assignments, and/or communications contain material that raises concerns about suicide, homicide, and/or violence.
