Step 1: Make a Blank Page

Step 2: Call it Sculpture and make Available
Step 3: Click the HTML button

Step 4: Insert the HTML code from the email and click update
Step 5: Edit your information in the Content window.

Step 6: Click Submit (I had to go to Student Preview to see the page).

Step 7: Move the link up in the Course Menu

Step 8: Go to the Control Panel → Customization → Teaching Style. Choose the Sculpture page as your Entry Point

That should be it!
