## **HOUSING VISITATION**

Visitation is defined as those times during which residents may have guests in their rooms, apartments, or in the public areas. Within these plans, the shared concerns and wishes of the roommates are of paramount importance and determine what are acceptable or unacceptable visitation privileges within a specific apartment. Visitation is a privilege that is subordinate to a resident's right of privacy within her or his room. Residents may not exercise their visitation privileges if doing so interferes with the rights of the roommate or of other residents.

### Visitation Policies

In order to promote a safe and secure environment that is conducive to the academic goals of Housing, the following procedures are in effect in all University apartments:

The hosting resident will be responsible for the conduct of his or her guest(s) at all times and must be present with the guest(s) at all times. Guests and hosts alike are responsible for knowing and abiding by all regulations and either or both may be subject to disciplinary action for violations.

Residents may be permitted to have overnight guests for a maximum of three consecutive nights, provided that approval is given by all roommates. No guest may stay more than three nights by changing hosts.
