OLLI FREQUENTLY ASKED QUESTIONS

WHAT IS OLLI?

OLLI is the acronym for the prestigious Osher Lifelong Learning Institute offered at 120+ Universities throughout the country. OLLI provides intellectual, social, and cultural enrichment opportunities in a climate that fosters friendship and a mutual sharing of ideas and life experiences.

MISSION

The Osher Lifelong Learning Institute (OLLI) at the University of South Carolina Beaufort (USCB) is devoted to creating and sustaining a robust and thriving lifelong learning community specifically developed for adults 50 and older through intellectual and social programs.

WHY JOIN OLLI?

People who are active, engaged in their communities, and who continue learning throughout their lives feel more productive and purposeful, and are healthier and happier. Members share common bonds of intellectual curiosity and the experience of their generation. They are self-motivated learners, eager to share opinions, knowledge, and expertise with humor and mutual respect. OLLI offers opportunities to meet new friends, make contacts, and develop connections. In addition to lectures, members can attend social events, take field trips, and participate in a myriad of other short courses that better one's quality of life, providing a personal sense of health, engagement, and overall well-being.

WHO TEACHES THE COURSES?

OLLI's philosophy is "teach your passion." Our volunteer instructors are fellow lifelong learners, just like you. They may teach topics related to those they pursued before retirement or may share their knowledge in a new area of interest.

HOW MUCH DOES IT COST?

OLLI memberships are \$45 annually. Membership grants you access to all OLLI programs across our three regions. There are three terms within a year, Winter/Spring, Summer, and Fall. Members can choose between an UNLIMITED or PAYGO option. Unlimited allows a member to take as many classes within that term as they wish for just \$130. PAYGO allows members to pay per class for just \$16. Summer classes are FREE for OLLI members.

ART103: THE HISTORY OF THE GOTHIC CATHEDRAL

1 Session | Monday | Nov 3
1-3PM | In-Person | Bluffton Campus

The fall of the Western Roman Empire forced European Christians to start anew in building construction technology. Additionally, they faced the challenge of designing buildings that could accommodate new Christian worship practices and iconography derived directly from the Bible. These dual challenges led to the development of what we now refer to as the Gothic cathedral. This program will focus on the evolution of this architectural style in the geographic region of France known as the Île-de-France, culminating in the current reconstruction of the Notre-Dame Cathedral.

Monroe, Lester Flatt and Earl Scruggs, and Carter and Ralph Stanley are considered bluegrass royalty. Movies including *Bonnie & Clyde*, *Deliverance*, and *O Brother, Where Art Thou?* increased the music’s popularity. Tap your feet and enjoy this exciting class!

Valerie Nieman, author of *Upon the Corner of the Moon: A Tale of the Macbeths*, will reveal who the real Macbeth and Duncan were, how they lived, where Shakespeare found his information, and how her Highland wanderings helped her imagine their world.
